New for 2013: The APPA Business Partner Whitepaper Series

The new year marks the beginning of a new feature in *Inside APPA*, the APPA Business Partner Whitepaper Series. Starting with today's issue, *Inside APPA* includes case studies, research results, product development information, or other articles from APPA Business Partners. We will highlight one Business Partner firm per issue; this week's whitepaper comes from Acuity Brands. You'll find the whitepaper directly following the APPA News section.

APPA NEWS

University of Washington Bothell Hosts Successful Drive-In Workshop; Washington State Chapter of APPA Is Launched!

APPA is pleased to announce the launch of the Washington State APPA Chapter (WAPPA) on December 12, 2012. Formation of the WAPPA chapter was announced in conjunction with a recent [APPA Drive-In Workshop](#) held at the University of Washington Bothell. The APPA Drive-In program was made possible through the support of [ESC Automation](#) and [McKinstry](#).

Forty-eight educational facilities professionals from more than 20 APPA member institutions, business partners, and affiliates attended the workshop. Presentations on energy management dashboards and the APPA Facilities Performance Indicators program were included in the workshop program and were presented by Eric Shimmin (ESC Automation) and Duane Hickling ([Hickling & Associates](#)).

“We are thrilled to see WAPPA become a reality,” said PCAPPA Past President Tony Guerrero, who serves as the assistant vice chancellor for facilities services at the University of Washington Bothell. “Since we held our first APPA Drive In back in 2010 at Seattle University, there has been a strong desire to have regular meetings for professional development and networking opportunities.”

Educational facilities professionals attending the December 12 APPA Drive-In Workshop at the University of Washington.

Founding members of the new WAPPA chapter are as follows:

- Tony Guerrero – University of Washington Bothell
- Steve Szablya – Seattle University
- Chuck Davis – Seattle Central Community College
- Melinda Nelson – ESC Automation | Delta Controls

“We appreciate all the help received from APPA, and also the support and advice of JB Messer, a founder of the Oklahoma State Chapter and former CAPPA president,” said Melinda Nelson, PCAPPA’s business partner liaison.

For a listing of APPA’s chapters and links to chapter websites, visit <http://appa.org/regions/chapters.cfm>.

2013 Award Nominations & Applications Due Jan. 31!

Help a colleague, a peer, or yourself get deserved recognition. Submit your nomination soon.

Nominations are now being taken for APPA's 2013 institutional and individual awards: Award for Excellence, Sustainability Award, Effective and Innovative Practices Award, APPA Fellow, Meritorious Service Award, and Pacesetter Award. The deadline for consideration for the 2013 awards is January 31, 2013. Awards nominations submitted after that date will be held and considered in the 2014 award cycle.

Visit <http://www.appa.org/recognition/> for award details and to submit nominations. Questions about the award process? Contact your regional representative to the Professional Affairs or Awards and Recognition committees, or [Christina Hills](#) at the APPA office.

BUSINESS PARTNER WHITEPAPER SERIES

Lighting Retrofit Kits: An Ideal Solution for Schools

A Whitepaper by Acuity Brands

Welcome to the first of APPA's Business Partner Whitepapers. The series highlights the wealth of knowledge, experience, and expertise of APPA's 316 Business Partner members through case studies, research reports, product development resources, and other industry knowledge. The series' goal is to provide concise insight into the latest innovative solutions for addressing educational facilities management challenges. The first whitepaper comes from **Acuity Brands** and focuses on lighting retrofit kits for schools. Many thanks to APPA's Business Partner members for their continued support and for contributing to the new whitepaper series. Download the new whitepaper [here](#).

APPA INFORMATION & RESEARCH

Announcing the new *APPA Publications Catalog: Resources in Facilities Management*

APPA's new *Publications Catalog 2012–2013* provides an overview of the knowledge resources coming out of APPA—the information you need to keep your institution performing at its best. From strategic capital management to improving campus operations to better people management, the catalog provides a snapshot of APPA's latest offerings. [Download](#) the catalog.

BOK

Body of Knowledge

INDUSTRY NEWS

DOE and EPA Semi-Annual Regulatory Agenda

This week, many of the federal agencies released their semi-annual regulatory agenda in the *Federal Register*. The agendas are particularly helpful for all those tracking or otherwise involved in various upcoming or pending regulations. They provide approximate timelines for the various rulemakings. While not exact in terms of timing, the agendas offer a general idea of federal actions. Regulatory agendas for two agencies whose activities are relevant to APPA members, the [Department of Energy](#) and the [Environmental Protection Agency](#), are attached.

Cuyahoga Community College Westshore Campus Building Achieves LEED Gold Certification

Cuyahoga Community College (Tri-C) Westshore Campus Health Careers and Sciences building has earned the college its second LEED® Gold certification from the United States Green Building Council (USGBC). Tri-C is the first community college in Ohio to earn three LEED certifications. The Eastern Campus Health Careers and Technology building earned Gold, the second-highest level of distinction for sustainable design, last July: the Brunswick University Center earned Silver in June. The 65,000-square-foot building houses classrooms, simulation labs, science labs, campus administration, and a media center around a central collaboration space that

overlooks a protected wetland area. The Westshore Campus building's sustainable features include:

- Daylight harvesting
- 40 percent reduction in energy use (over current required standards)
- Use of cradle-to-cradle materials on exterior envelope
- Exterior views in 90 percent of occupied spaces
- 47 percent reduction in water usage (over current required standards)
- 90 percent of annual stormwater runoff treated on site
- Native landscaping that eliminates the need for irrigation
- 25 percent recycled content
- 92 percent construction waste diversion

Can Higher Ed Lead Institutional Green Procurement Into a New Era?

Sustainable procurement work has never been more exciting. New data, science, and processes are coming together with years of on-the-ground experience to create a new paradigm. A higher education pilot project is laying the groundwork for a sustainable procurement leadership recognition program, modeled on the U.S. Green Building Council's LEED rating system. If that program comes to fruition, it could radically accelerate the adoption and effectiveness of sustainable procurement in sectors far beyond higher education. [Learn more.](#)
