APPA and COAA Develop Collaboration

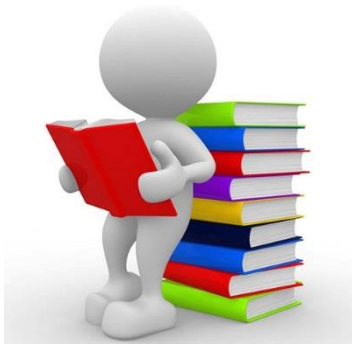

APPA and the Construction Owners Association of America (COAA) have launched a collaborative partnership centered on the professional development of their members, per APPA President-Elect Don Guckert of the University of Iowa. According to Gwen Glattes, COAA's current president, "The higher education sector represents over half of our construction owner members, and so partnering with APPA is a natural alliance for our association." Watch for special programming at future APPA U sessions, as well as webinars and articles of interest to both APPA and COAA members.

The 2017-18 FPI Survey is Now Open

The 2017-18 **Facilities Performance Indicators** (FPI) survey is now open and ready for your data. The FPI is a portfolio of key facilities performance measures gathered by your peers, and addresses the essential questions every facilities professional must be able to answer in order to effectively perform their roles.

Also open is the APPA/NACUBO **Key Facilities Metrics** (KFM) survey. The goal is for campus finance and facilities

professionals to be in alignment on a handful of important annual consumption metrics: Electrical/Btu; Water Consumption; Waste Stream Output; Electrical; and Carbon Footprint.

The deadline for completing both surveys is Monday, December 17, 2018 at midnight Eastern.
