A
PPAs annual Facilities Core Data Survey is well underway at this time, and we invite all educational institutions to complete the survey for the 2005-06 fiscal year. You do not have to be a member institution of APPA to participate.

Developed by APPAs Information & Research Committee, the Facilities Core Data Survey contains 12 modules that collect data on strategic financial measures, costs per square foot for several facilities functions, building age and space use, personnel costs and staffing levels, and much more.

The Facilities Core Data Survey is conducted on an annual basis, and the resulting Web-based reports, published as Facilities Performance Indicators, include both costs-per-square-foot comparisons as well as Balanced Scorecard strategic measures.

The format of the Facilities Core Data Survey is published six times a year (January, March, May, July, September, and November). Editorial contributions are welcome and should be sent to the address below.

Published by APPA: 1643 Prince Street, Alexandria, Virginia 22314-2818.
