

**Mitsubishi Electric HVAC Advanced Products Division**, has announced the arrival of the AG-150, the newest addition to its CITY MULTI Controls Network (CMCN), the AG-150. Mitsubishi Electric HVAC's CITY MULTI system is an

energy saving simultaneous cooling and heating two-pipe system that allows every individual space to have its own personalized, zoned comfort system. Offering a wide range of energy saving functions such as seasonal scheduling and automatic switchover, the new AG-150 can monitor and control up to 50 indoor units and features a color touch panel display and 9-inch, high-resolution, easy-to-use LCD screen. For more information visit Mitsubishi Electric at [www.mehvac.com](http://www.mehvac.com).

**Zoneworks** introduces the SCL Series of sliding curtain walls, a highly flexible and adaptable fabric wall system that makes it easy to change the interior space of virtually any industrial or commercial facility – while at the same time – eliminating the need for costly and time-consuming projects involv-

ing permanent walls, or rigid panelized systems. Zoneworks' SCL curtain walls allow users to quickly and easily create new environmental zones and/or alter existing space to better meet the needs of the operation and/or building occupants. The flexible fabric walls are ideal for virtually any application where permanent load-bearing walls are not needed, or cost-prohibitive. Customized to match the unique requirements of each installation, SCL curtain walls save energy, optimize the use of functional areas, control dust or fumes, ensure privacy, and improve aesthetics. For greater detail visit Zoneworks at [www.zoneworks.com](http://www.zoneworks.com).

New Products listings are provided by the manufacturers and suppliers and selected by the editors for variety and innovation. For more information or to submit a New Products listing, e-mail Gerry Van Treeck at [gvtgvt@earthlink.net](mailto:gvtgvt@earthlink.net).
