APPA FACILITIES DRIVE-IN WORKSHOPS

APPA recently launched a new professional development service, the APPA Facilities Drive-in Workshops. These Drive-in Workshops are designed to support your staff education needs at a time when resources are difficult to come by for employee technical training. The four-hour programs allow local professionals to drive in mid-morning for several short sessions, advance their understanding of the latest facilities technologies and network with peers, and get back to their work and home quickly and conveniently with little, if any, travel costs.

The training is delivered by an APPA business partner that sponsors the workshop, while APPA member institutions serve as the host location and provide an adequate meeting space for up to 70 workshop attendees. Recent drive-in workshops have been held at campuses in Kansas City, Seattle, San Antonio, Raleigh, North Carolina, and elsewhere.

APPA staff members coordinate the marketing effort, reaching out to facilities professionals from both member and prospective member institutions within a two-hour driving distance of the workshop location. The workshop program is strictly an educational event with minimal vendor promotion or advertising. Topics are developed and speakers are identified in consultation with the host institution.

For more information on how your institution can host a Facilities Drive-in Workshop, please contact APPA Professional Development Manager Corey Newman at corey@appa.org. Additional details are also available on the APPA website at <http://appa.org/Training/Driveinprogram.cfm>.

Registration and lunch for workshop attendees are complimentary, regardless of whether your institution or organization is an APPA member. We hope you will take advantage of this training opportunity.
