APPA WELCOMES NEW CONTENT COORDINATOR FOR BOK PDC SECTION

Don Guckert, associate vice president and director of facilities management at the University of Iowa, has agreed to serve as the new content coordinator for the Planning, Design, and Construction section of APPA’s online BOK (Body of Knowledge). As a longtime faculty member and dean for PDC for APPA’s Institute for Facilities Management, Don is well qualified to serve as a content coordinator for the BOK. His responsibilities with the BOK will include reviewing chapters and topics for updating, and identifying and working with subject matter experts and chapter authors.

Don replaces Bill Daigneau, who recently retired as chief facilities officer at the University of Texas M.D. Anderson Cancer Center and now serves as an educational facilities consultant.

APPA and Maggie Kinnaman, BOK’s editor-in-chief, welcome Don to the BOK Editorial Board, and thank Bill for his many years of service on the BOK and its predecessor, the Facilities Management manual. Learn more about the BOK at www.appa.org/bok.

APPAinfo: JUST ASK!

How should your school handle graffiti and vandalism? How can you creatively deal with customer service issues? What strategies are you using to tell the facilities story to your senior campus administrators? The possible discussion topics are endless. Just ask!

Subscribers can post their questions and responses to appainfo@lyris.appa.org. To subscribe to the APPAinfo discussion list, go to www.appa.org/discussionlists/index.cfm.

APPA’S FACILITIES MANAGEMENT EVALUATION PROGRAM (FMEP)

The quality of an educational organization’s facilities has a major impact on attracting and keeping students. But how do the many people who depend on your facilities define quality? How do your facilities meet their expectations? And how do they measure up against other campuses?

APPA’s Facilities Management Evaluation Program (FMEP) helps you turn these questions into a powerful catalyst for improving how you manage your facilities. Modeled after the Baldrige National Quality Program Criteria for Performance Excellence, the FMEP criteria provide a framework for continuous improvement. This customized evaluation gives you the feedback and actions you need to transform your educational facilities program into one worthy of international recognition for quality.

The FMEP is not a cookie-cutter process. Each FMEP is customized and tailored to the specific institution for which it is conducted. The evaluation team is handpicked so that each institution is evaluated by a select group of peers from campuses sharing similar educational, financial, and physical characteristics.

If you are interested in:
- Achieving continuous quality improvement
- Exceeding customer expectations
- Improving your understanding of facilities issues
- And changing your organization’s responsiveness to the demands it faces...

Consider the APPA FMEP! For more information, visit www.http://appa.org/fmep/ or contact Holly Judd at holly@appa.org.
