About APPA

APPA promotes leadership in educational facilities for professionals seeking to build their careers, transform their institutions, and elevate the value and recognition of facilities in education. Founded in 1914, APPA provides members the opportunity to explore trends, issues, and best practices in educational facilities through research, publications, professional development, and credentialing. Formerly the Association of Physical Plant Administrators, APPA is the association of choice for more than 13,000 educational facilities professionals at more than 1,500 learning institutions throughout the United States, Canada, and abroad. For more information, visit us at www.appa.org.

THE APPA LIBRARY—AN UNTAPPED RESOURCE

Sometimes you find that you

need to write a report for your boss, prepare for a campus facilities committee meeting, or compile statistics or examples of best practices to help you justify a proposed project or decision. Where do you go for your content and connections?

We hope that APPA is one of your primary go-to resources for assistance. For example, are you aware that virtually every APPA book, chapter, monograph, research report, magazine article, and other published material has been abstracted and cited in our online library?

The APPA Library is a searchable resource of information about facilities management in colleges, universities, schools and school districts, and other educational institutions. Resources include articles from *Facilities Manager* magazine, proceedings of past APPA's annual conferences, books, surveys, reports from APPA's Center for Facilities Research, and other print and electronic material.

Results from your search of the APPA Library may be as brief as a bibliographic citation, or it may include a full description of the material and a link to the full text in HTML or PDF format. We are adding more full-text content to the library every month.

To date there are nearly 3,700 separate citations, and the list is growing. To search the library, simply go to www.appa.org/library. There you may browse the entries alphabetically

by author or by title, or you may hone your search to a particular author, keyword, year, or publication. In addition, you'll find a link to the latest issue of *Facilities Manager*.

For instance, a search using the keyword "environment" brings up 461 bibliographic citations from past APPA publications. A further search for "sustainability" brings up 114 listings.

"Energy management" shows 93 individual items, and "deferred maintenance" lists 162.

Looking for articles and presentations by Lander Medlin lists 87 pieces. There were 76 APPA citations for the year 2011. The search

function allows you to

do more complicated searches as well.

The APPA Library is only one of many resources available to APPA members as you traverse the waters of campus leadership, facilities management, and long-term planning. 💰

CURTIS CAB FOR THE CLUB CAR CARRYALL

THE LEADER IN CAB SYSTEMS, ATTACHMENTS AND ACCESSORIES FOR OVER 45 YEARS

* Club Car and Carryall are registered trademarks for Club Car, LLC.

It's not that more people are buying Curtis Cabs; it's why.

- »» Automotive style door opening allows easy access to cargo
- »» 5x the ventilation of factory cab - tilt out windshield, dual sliding windows and flip up rear window provides exceptional ventilation
- »» 16% lighter than factory cab for extended range and fuel economy
- »» Doors are up to 70% more shatter resistant than all-glass doors
- »» Less than 1/2 the hardware and 45% fewer standard parts than the factory cab means faster installation time
