

99.9 percent of Staph, MRSA, *E. coli*, vancomycin-resistant *Enterococci* (VRE), and *Enterobacter aerogenes* after two hours of exposure on a painted surface. Able to kill these infectious bacteria on painted surfaces, Paint Shield is an important solution for the healthcare market, athletic facilities, schools, daycare centers, senior care communities, residential housing, and

hospitality settings. For further information on Sherwin-Williams products visit [www.sherwin-williams.com](http://www.sherwin-williams.com).

**RGF ENVIRONMENTAL GROUP, INC.**, an environmental products manufacturer, has introduced their latest product for the HVAC/indoor air-quality industry. The patent-pending BLU QR UV-C lamp device was designed with input from contractors in the

field and features our new quick-release replacement lamp, which allows for no-tools lamp replacement. It comes standard with four mounting options in the box, including the easy-to-install magnetic mount and multiple through-plate mounting styles. The BLU QR is priced economically and provides ultraviolet light disinfection and protection to the AC coil surfaces from bacteria, virus, mold growth, and odors, resulting in a cleaner, more efficient energy-saving system. For more information on RGF Environmental Group products, visit [www.rgf.com](http://www.rgf.com). 

New Products listings are provided by the manufacturers and suppliers and selected by the editors for variety and innovation. For more information or to submit a New Products listing, e-mail Gerry Van Treeck at [gvtgvt@earthlink.net](mailto:gvtgvt@earthlink.net).
