Climb Higher with APPA's Credentialing Course

The Certified Educational Facilities Professional (CEFP) credential and the Educational Facilities Professional (EFP) certificate offer professional development skills to participants at all levels of facilities management at any point in their career.

The new online format encourages networking among peers through an interactive messaging portal called the Forum and live webinars hosted by two CEFP-certified facilitators. Participants also have access to APPA's Body of Knowledge (BOK) and study guide, as well as interactive learning modules and flashcards. Having the option to study alone or with your peers gives you complete control of how, when, and where you study—and even who you study with!

The APPA CEFP and EFP curriculum will give you access to the latest theory and understanding in facilities management, as well as provide you with the professional competency needed to succeed in this challenging and growing field.

Take control of your future. Climb Higher!

For more information please contact Kelly Ostergrant, APPA's credentialing coordinator, at *kelly@appa.org*.

APPA's Facilities Management Evaluation Program (FMEP)

The quality of an educational organization's facilities has a major impact on attracting and keeping students. But how do the many people who depend on your facilities define quality? How do your facilities meet their expectations? And how do they measure up against other campuses?

APPA's Facilities Management Evaluation Program (FMEP) helps you turn these questions into a powerful catalyst for improving how you manage your facilities. Modeled after the Baldrige National Quality Program Criteria for Performance Excellence, the FMEP criteria provide a framework for continuous improvement. This customized evaluation gives you the feedback and ac-

tions you need to transform your educational facilities program into one worthy of international recognition for quality.

The FMEP is not a cookie-cutter process. Each FMEP is customized and tailored to the specific institution for which it is conducted. The evaluation team is hand-picked so that each institution is evaluated by a select group of peers from campuses sharing similar educational, financial, and physical characteristics.

If you are interested in:

- Achieving continuous quality improvement
- Improving your understanding of facilities issues, and
- Exceeding customer expectations
- Changing your organization's responsiveness to the demands it faces...

Consider the APPA FMEP! For more information, visit www.appa.org/fmep/ or contact Holly Judd at holly@appa.org.

Compete in RecycleMania This Spring – Competition Starts February 5!

RecycleMania is a friendly competition and benchmarking tool for college and university recycling programs to promote waste reduction activities on their campus. Over an 8-week period each spring, colleges across the United States and Canada report the amount of recycling and trash collected each week and are ranked in various categories. With each week's updated ranking, participating schools track their performance against other colleges and use the results to rally their campus to reduce and recycle more.

WHY PARTICIPATE IN RECYCLEMANIA?

- **Knowledge is power.** Use the competition to benchmark your school's recycling efforts and track improvements over time. Coordinators can use this information to communicate your recycling progress to students!
- **School spirit!** Whether you're striving to reach a recycling goal, competing against a rival school, or aiming for the national title, RecycleMania brings out competitiveness in all of us.
- **Get your administration's attention.** Participation can benefit your school's recycling programs by bringing attention to, and making the case for, additional resources to expand your campus waste reduction efforts.

HOW YOU CAN PARTICIPATE:

Competing schools can participate in different categories based on their interests and level of involvement desired. Colleges can plan outreach events and compete based on per capita recycling or diversion (recycling rate) for the full 8-week tournament (see details at <http://recyclemaniacs.org/participate/rules>). If the reporting requirements for the traditional 8-week categories look daunting, there are ways to compete without having to track recycling for your entire campus! Competitors can focus on a single Game Day Basketball event, or do one of the special competitions like Race to Zero Waste or E-Cyclemania, which are great ways to get involved for the first time.

The competition starts on February 5, so register at <https://recyclesearch.com/profile/recyclemania>.

Supervisor's Toolkit

Nuts and Bolts of Facilities Supervision

Supervisor's Toolkit – Venues in 2017

Supervisor's Toolkit has been specifically designed to meet the needs of the facilities management professional. It is a structured, open-ended, and pragmatic approach to developing supervisors, and designed to help them realize both personal and professional growth. The program is designed for a full week of training.

Correction on Home and Campus Care article by Steven R. Hultin and John P. Morris

Table 5 on page 27 of the November/December issue should have read 6,000,000 in the building area (sq. ft.) section. The corrected chart below has been posted on the online version of the article:

Table 5: Simplified Total Cost of Ownership (TCO) for a Typical Campus Setting

Typical Campus Setting		Unit Cost (\$/Sq. Ft.)		% CRV
Building Area (Sq. Ft.)	6,000,000			
Building CRV	\$2,700,000,000	\$450		
Building Annual Maintenance	\$19,650,000	\$3.28		0.7%
Annual Building Renewal Costs	\$43,866,000	\$7.31		1.6%
Total Maintenance and Renewal	\$63,516,000
