## 2016-2017 FPI Report Now Available

The 2016-2017 Facilities Performance Indicators (FPI) report is now available to help you assess, measure, and lead your institution to success. With almost 300 learning institutions now participating, the report will empower you with the vital data, statistical references, and reporting tools needed to measure operations and performance. The report will also help identify capital asset realities and help you lead a successful facilities strategy that supports your institution's mission and vision.

The FPI report provides answers to the following questions, and more:

- How well is your facilities portfolio in alignment with your institution's strategic direction and academic focus?
- What are your facilities inventory, square footage, and building ownership costs?
- How efficiently do your facilities operate?
- How does your campus's facility performance contrast with that of its peer institutions?
- Is your campus adequately funding the facilities annual management budget?

To access the report, log in to your myAPPA account page, go to the myResearch heading, and under it, click on the "FPI Report Access" link.

The report is free to APPA members who participated in the survey, or it can be purchased:
