

year-round energy savings in mind. M-Series heaters include patented Cambridge Low-Fire Start Technology, and proprietary stainless-steel burners provide ventilation and tempered make-up air for a wide variety of demanding commercial and industrial retrofit needs. For further information on Cambridge Engineering visit www.cambridge-eng.com.

ECO-PRODUCTS is launching a new line of compostable takeout containers that are unmistakably and undeniably natural. The bases of the new containers come in a natural bagasse color and are made from 100-percent-renewable sugarcane fiber. Named World-View Naturals, the new line is

strong, durable, and versatile. Guests can easily tell that these take-out containers are environmentally friendly. The new line consists of sugarcane bases with RPET (recycled polyethylene terephthalate) or Ingeo lids for maximum strength and optimum presentation. Eco-Products is introducing the new containers as interest in “zero waste” skyrockets among restaurants and caterers. The public is increasingly seeking out environmentally friendly businesses committed to sustainability. For more information on Eco-Products visit www.ecoproducts.com. 

New Products listings are provided by the manufacturers and suppliers and selected by the editors for variety and innovation. For more information or to submit a New Products listing, email Gerry Van Treeck at gvtgvt@earthlink.net.
