

**MASTER LOCK**, an industry security leader for more than 95 years, has expanded its Bluetooth-enabled product family to include the all-new Bluetooth Door Controller, which offers security professionals and their customers cost-effective, keyless access control from the convenience of their smartphone. Available now, the Bluetooth Door Controller wires into electric strikes or magnetic locks and operates with the convenient Master Lock Vault Enterprise smartphone app and web interface. The integrated door-access solution provides efficient, effective administration of security management and user access across a facility or business of any size. With no keys to lose, no combinations to forget, and no unauthorized key duplication, the Bluetooth Door Controller offers the simplicity and savings of keyless security with the added benefit of being able to control, monitor, and track access via the Master Lock Vault Enterprise platform.
