**ENVIRONMENTAL MANAGEMENT GUIDE FOR EDUCATIONAL FACILITIES**
Co-Published by APPA and the Campus Safety Health and Environmental Management Association, Published 2017; Softcover, 210 pages; Member: $66.00, Nonmember: $81.00

Colleges and universities are environmental leaders in teaching, research, and sustainability. Institutions need to be vigilant to the importance of environmental laws and regulations and to allocate the resources required for compliance. Additionally, environmental compliance has proved to be a moving target.

Since 1996, APPA and CSHEMA, the Campus Safety Health and Environmental Management Association, have collaborated to produce guidance documents to help educational facilities overcome the challenges of environmental compliance.

**THE BUILDING COMMISSIONING HANDBOOK, THIRD EDITION**
Co-Published by APPA and The Building Commissioning Association, Published 2017; Softcover, 348 pages; Member: $75.00, Nonmember: $95.00

This third edition of The Building Commissioning Handbook captures the many changes in the building market that are —and will continue to be—advancing and accelerating the role and value of commissioning. The design, construction, operation, and optimization of increasingly complex building systems and assemblies requires unique and expanding skill sets along with broad and deep knowledge of building science.

Produced by APPA and the Building Commissioning Association, this handbook provides a sequential, phase-based approach to the building commissioning process for all who have a stake in understanding, participating, and delivering properly functioning higher education and other commercial and institutional facilities.

**GROWING WEEDERS INTO LEADERS**
By Jeff McManus, Published 2017; softcover, 128 pages; Member: 14.00, Nonmember: 17.00

Jeff McManus describes the joys, the defeats, the brilliant problem-solving and the “best laid plans” that are proven worthless...until the bigger picture is told. It is the “bigger picture” told from the ground level. Growing Weeder into Leaders takes you through the practical applications of empowering people to experience not only what it means to grow outstanding landscapes, but also to grow greatness in themselves and encourage it in others.

Jeff McManus
